

ARCHMAIL

WEB BASED EMAIL

In the Fall of 2006, the Division of Information Technology began upgrading the Catholic Center email system and in December of 2006 we successfully migrated the Catholic Center users. For several months IT worked closely with both internal and external users to validate the system and ensure that it was properly prepared to support the Archdiocesan needs.

On the first weekend of November 2007, the complete transition to the new system took place with the migration of external email accounts. These accounts previously used www.archbalt.org/exchange to access email. Details on the migration were forwarded to the mailboxes of the affected users. Individuals with archbalt.org email addresses that forward to alternate accounts were not impacted by this change.

The transition to the new email system allows us to extend email services to all Archdiocesan employees. For security reasons these accounts are limited to employees recognized in the Archdiocesan Human Resources system. After December 1st, a process to request additional accounts will be made available through the Archdiocesan web site at www.archbalt.org/archmail. For additional information please contact the Archdiocesan IT Helpdesk at helpdesk@archbalt.org or (410) 547-5305 Option 1.
